

ERMAK Construction & Engineering Company Profile

**ERMAK Construction & Engineering
Introduction Dossier**

About Us

ERMAK Electrical Construction Machinery Manufacturing Industry and Trade Co. Ltd.

Trust and Quality – Since 1996

Founded in 1996, ERMAK Elektrik İnşaat Makina İmalat Sanayi ve Ticaret Limited Company has become one of the most reliable organizations in the construction of industrial buildings. Since its establishment, our company has continuously increased its knowledge and experience, and has been providing services with trust for more than 23 years.

Expert Staff and Technical Competence

With engineers, architects, technical personnel, and support teams with high application capability, our company has successfully completed and delivered all the projects it has undertaken so far. Our staff closely follow innovations in the sector and adapt them to projects, giving great importance to the timely delivery of works. During this process, full compliance with occupational health and safety rules is ensured. In fact, the absence of any major work accidents at our construction sites to date is an indication of this sensitivity.

Quality and Reliability

ERMAK fulfills its obligations with great care, both towards employers and all institutions and organizations it communicates with during the work process. Our company has all the necessary equipment and machinery to deliver contracted projects on time and at the required quality. In this way, we are able to successfully manage and operate multiple construction sites at the same time.

Materials and Quality Control

Our experienced team reliably and efficiently manages all processes, from supplier selection to material procurement. In addition, our quality control unit, under the supervision of our engineering staff, carefully inspects every stage of the work, ensuring rigorous control throughout the process.

OUR MISSION

- Our company aims to provide services at high standards by using the latest technologies and modern methods in all areas of its activities.
- Our goal is to go beyond meeting customer expectations, to achieve superior quality in every project, and to ensure sustainable success.
- In addition, we aim to develop and strengthen our investment and construction activities abroad, and to become a strong player in the global market.

OUR VISION

As ERMAK Construction & Engineering, our vision is:

- To be one of the leading and most reliable companies in Turkey in the fields of engineering, construction, and project management,
- To become a brand that produces and shares knowledge, and that makes a difference in the sector with its competitive structure,
- To reach the widest range of clients, including both the private sector and public institutions, with our principle of high quality,
- To add value to the future of our country by carrying out large and comprehensive projects.

Building & Construction Projects

- Industrial Buildings
- Housing, Residences, Villas
- Offices and Business Centers
- Commercial and Shopping Centers
- Hospitals and Healthcare Facilities
- Schools and Educational Facilities
- Military Facilities: Hangars, Aprons
- Restoration and Renovation

Project Name	TOYOTA PLAZA NATAŞ
Type of Structure	Commercial Center
Project Location	Kadıkoy/Istanbul
Completion Year	1999

Project Name	MEGATEK Elektrik Elektronik
Type of Structure	Manufacturing Facility
Project Location	Ergene/Tekirdag
Construction Area	5500 m²
Completion Year	2002

Project Name	BEKS ÇORAP
Type of Structure	Manufacturing Facility
Project Location	Cerkezkoy/Tekirdag
Construction Area	25.000 m²
Completion Year	2005

Project Name	DS SMITH OLUKLU MUKAVVA
Type of Structure	Manufacturing Facility
Project Location	Corlu/Tekirdag
Construction Area	15.000 m²
Completion Year	2009

Project Name	BOYSİS METAL
Type of Structure	Manufacturing Facility
Project Location	Bandırma/Balıkesir
Construction Area	7.500 m²
Completion Year	2010

Project Name	PAL PLASTİK
Type of Structure	Manufacturing Facility
Project Location	Istanbul
Construction Area	7.500 m²
Completion Year	2010

Project Name	BEST DOOR
Type of Structure	Manufacturing Facility
Project Location	Cerkezkoy/Tekirdag
Construction Area	7.500 m²
Completion Year	2011

Project Name	Ali Rıza Özdemir Villaları
Type of Structure	Villa
Project Location	Ortakoy/Istanbul
Construction Area	2.000 m²
Completion Year	2012

Project Name	Tuna Alüminyum
Type of Structure	Manufacturing Facility
Project Location	Velikoy
Construction Area	22.000 m²
Completion Year	2012

Project Name	Şen Deri
Type of Structure	Manufacturing Facility
Project Location	Cerkezkoy
Construction Area	5.761 m²
Completion Year	2013

Project Name	NOYA CENTER
Type of Structure	Manufacturing Facility
Project Location	Istanbul
Construction Area	22.000 m²
Completion Year	2014

Project Name	MGS Plastik Sanayi (1)

Sustainable Buildings

- Designing long-lasting and durable structures
- Developing environmentally friendly projects with modern engineering solutions

Environmental Responsibility

- Use of energy-efficient technologies
- Preference for eco-friendly and recyclable materials
- Solutions for the preservation of natural resources
- Practices aimed at reducing the carbon footprint

Waste Management and Recycling

- Principle of minimizing waste in construction processes
- Separation of waste and ensuring its recycling
- Preference for reusable building materials

“We bring power to industry and prestige to living spaces.”
